Examiner: Chen, S.

For: METHOD FOR DETECTING ANTIBODY AND ANTIGEN FOR DETECTING BORNA  
DISEASE VIRUS

**RESPONSE TO RESTRICTION REQUIREMENT**

Mail Stop Amendment  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

The present paper responds to the Election of Species Requirement, dated July 31, 2006, issued in the above-identified U.S. patent application. The Examiner set a one-month period for reply. This reply is timely.

In response to the requirement that Applicants elect a single sequence from among SEQ ID NOs:5-8, recited in claim 22, Applicants hereby elect SEQ ID NO:8. Claims 17, 18, 22 and 23 are readable thereon.

Applicants traverse the instant rejection on the basis that it would not be a serious burden on Patent Office resources to search each of the sequences of SEQ ID NO:5-8.

The USPTO is directed and authorized to charge all required fees, except for the Issue Fee and the Publication Fee, to Deposit Account No. 19-4880. Please also credit any overpayments to said Deposit Account.

Respectfully submitted,

Drew Hissong
